

## **South Downs Astronomy Society Programme 2025 starting at 19:30**

Friday 10 <sup>th</sup> AGM and Main Talk Dr Colin McGill Galaxies –all you need to know  February Friday 7 <sup>th</sup> Claire Bradshaw – following up on her talk on Astroimaging in 2024.  March Friday 7 <sup>th</sup> Julian Onions. Last time – the Isaac Newton Telescope, this time, topic tbc  April Friday 4 <sup>th</sup> Ian Smith What are planetary nebulae?  May Friday 2 <sup>nd</sup> Peter Goodhew. Setting up and operating a Robotic Telescope yourself  June Friday 6 <sup>th</sup> Will Joyce Astrobiology  July Friday 4 <sup>th</sup> Tony Roberts Airborne Observatories.  August No meeting Perseids Meteor shower overnight August 12 <sup>th</sup> September Friday 5 <sup>th</sup> Speaker / subject to be confirmed  October Friday 3 <sup>rd</sup> Owen Brazell Galaxy Clusters. What are they? Observing and images.  November Friday 7 <sup>th</sup> Ian Sharp FRAS subject to be confirmed  December Friday 5 <sup>th</sup> Rene Breton subject to be confirmed
